

I do not get anything...
The healthcare system is
too complicated for me!

I have not seen a
doctor for ages.
How do I proceed to
see one now?

I do not have any
papers. How do I take
care of my health now?

My enterprise has closed
down. I have no health
insurance left.
Who can help me?

I would like to take
time to get my teeth
looked after properly!

health!*

The CMU,
do I have a
right to it ?

My health
must become
my priority again.
Where do I begin?

Promo Soins en Provence Verte

Promo Soins is an entry (a gateway) for health care

If I have trouble to obtain medical assistance or to assert my rights to healthcare, Promo Soins can help me.

RECEPTION - OFFICE

I am welcomed by an efficient motivated professional and friendly team.

I can talk while having a coffee and I can gain useful information about health care (vaccination, addictions, hygiene, food....).

SOCIAL SUPPORT

When I come for the first time, I meet the social worker, who can:

- *help me to find the available solutions that are appropriate to my needs;*
- *support me in my applications to get access to health care;*
- *help me to understand and to assert my rights to health care (such as CMU Universal healthcare coverage, AME Medical aid of state, ACS Help to get Supplemental health insurance...).*

MEDICAL CARE

According to my personal situation Promo Soins can offer me:

- *Medical consultations;*
- *Basic dental care;*
- *Paramedical care: nursing, physiotherapy, pharmacy...*

I can also access to private or public practitioners, or to professionals in partner associations.

ACCOMPANIEMENT TO APPOINTMENTS (social, medical)

When I am on my own to go to an appointment that worries me, I can ask for one of the volunteers from Promo Soins to accompany me.
